

Alliance Forestry Tyres - Planting new pines!

Customer: EURL Jean-Luc – Renaud ESPUNY
Location: France
Machine used: John Deere 7280R
Application: Forestry and Allied
Tires in use: F360 & F365

The EURL Jean-Luc – Renaud ESPUNY is a forestry contractor company doing all forestry works from the preparation of the ground to the plantation of pines.

They are located at Le bourg, LERM ET MUSSET (33), in the south west of France.

They have:

1. Six Forestry Tractors
2. Two Forestry Excavators.

This is the first time that an Alliance product has equipped a machine of EURL Jean-Luc – Renaud ESPUNY. They have devised a new way to prepare the ground to for the plantation with a new crusher (FAE).

The tyre dealer Jean-Guy Couzinet (Taquipneu), provided the right tyres as a solution for this application. The tyres should provide excellent traction and yet maintain good ground clearance to work on forestry terrain.

For this new application, the firm has a 310 HP John Deere 7280R tractor fitted with Alliance F360 480/70-34 in the front and size 710/70R42 from design F365 fitted in the rear axle.

The machine us used for about 160 hours in a month, and the tractor’s driver Sébastien says that the tyres are “Comfortable and are capable of better traction than the other forestry brands with comparable agriculture based tyres.” Spurred with their choice of tyres the will present the tyres for this new application this month (November 2015) ONF (Office Nationale des Forêts).

Sébastien, the Driver of the EURL ESPUNY (on the left) and Jean-Guy Couzinet from the tyre dealer Taquipneu, (on the right)

Alliance Tire Group specializes in the development, manufacturing, and marketing of tires for Agriculture, Forestry, Construction, Industrial, Earth Moving and OEM applications, under the Alliance, Galaxy, and Primex Brands.

Backed by nearly 60 years of experience, Alliance Tire Group serves customers in 120 countries and offers a full spectrum of products, from basic entry-level tires to a broad range of superior quality value-added products.

All of the Group’s tires are developed and tested at its advanced R&D centers.
