

# SUCCESS STORY

## Three Queenslanders - Three Success Stories.

On one of their frequent visits to Queensland, ATG representatives met a number of Queensland based satisfied end users of Alliance tires who were glad to share their success stories.

Brett McLaren is an independent farmer from the Dalby area, who always looks for new ways to improve the soil condition and to use his machines with much lower inflation pressure.

After learning about the advantages of Alliance's A390 flotation radial tires, Brett decided to replace the old original bias tires of his chaser bin with a set of Alliance A390 size 800/60R32 tires.

The results amazed Brett. The fact that he can now use his Finch Engineering wheat chaser bin with much lower inflation pressure for the same load made him extremely

Queensland is the second largest state, by area, in Australia, located in the north-east of the country.

Alliance A-390 Flotation Radial tires mounted on Mr. McLaren's Finch Engineering wheat chaser bin. The same heavy loads with much lower inflation pressure.

satisfied. He now enjoys the A-390 characteristics that guarantee high flotation, low soil compaction and great comfortability.

These days Brett is considering upgrading the bin to a bigger one. The certain decision he already took was to keep using the Alliance A-390!

Also in the Dalby area, Jamie Grant is farming and contracting with cotton as well as wheat and sorghum harvests. Jamie recently purchased a new John Deere 7760 round bale cotton picker. Standard, the new JD cotton picker, comes with a dual fitment of Firestone tires. He decided to upgrade the machine and mount Alliance tires on it.

Alliance A-390 Flotation Radial

Jamie chose to fit his cotton picker with Alliance A-360 size 620/70R42 high load 173A8 tires, as a single fitment and are utilizing this together with some modification to the front of the picker. The new tires improved the overall performance of Jamie's new John Deere 7760.

John Prosser, a local farmer and contractor from the Goondiwindi area, has recently purchased a set of eight Alliance A385 520/85R42 tires for his CASE STX 375 tractor. John has now already done over 500hrs of tilling work in the rough soils of the southern Queensland cotton area. He is very happy with the performance of the Alliance tires and considers upgrading his CASE to a bigger unit and also fitting it out with our bigger Alliance 620/70R42 tires.

Beside of the superior characteristics of the tires, John appreciates the prompt professional support he gets through the local tire dealer, Paul Campbell from Goondiwindi Tyre Service, and from ATG's Australian based expert.

Alliance Tire Group specializes in the development, manufacturing, and marketing of tires for Agriculture, Forestry, Construction, Industrial, Earth Moving and OEM applications, under the Alliance, Galaxy, and Primex Brands.

Backed by nearly 60 years of experience, Alliance Tire Group serves customers in 120 countries and offers a full spectrum of products, from basic entry-level tires to a broad range of superior quality value-added products.

All of the Group's tires are developed and tested at its advanced R&D centers.
