

## Spreading success.

Alliance A-580 on a spreader truck in New Zealand

Stuart Mawley from Te Mata Contractors is a big planting and harvesting contractor of tomatoes, beetroot and baby corn in the Hastings area, New Zealand. Stuart has been using Alliance tires for the last 3 years. Recently Stuart has decided to use 100% of ATG products as far as possible on his tractors and implements. Stuart is using different size Alliance A-350 Row Crop tires on his John Deere tractors that he uses to plant and harvest the vegetables i.e. 340/85R46, 14.9R46, 270/95R48 and 230/95R36 are some of the sizes of the Alliance A-350 range that he has been using. Stuart said: "I have been looking for a while to find a suitable replacement for the high priced original equipment fitted tires.

In Alliance he has not only found a product that can fulfill his service conditions but has also found a product that has good support and availability through the local tyre dealer: Greg Nicholson from Havelock North Tyre and Alignment, the NZ Importer namely Tyres4u and also the ATG technical backing.

*Stuart Mawley: A complete satisfaction from the Alliance products, the local dealer, and the technical support given by the regional Alliance field engineer.*

*Stuart's John Deere 6920 S equipped with Alliance A-350 Row Crop tires.*

The Alliance A-350 Row Crop tire series has a wide range offering with special LI's designed to meet customer requirement. Alliance Row Crop tires are designed keeping complete application requirement in mind of narrow section width, high aspect ratio radial tires well suited for operations of row crop farming - tillage, cultivation, harvesting and spraying applications. These specialized Narrow Section Width tires, give the farmer the advantage of higher yields, as the A-350 Row crop tire passes between the valuable crop without plant and root damages.

Alliance Tire Group specializes in the development, manufacturing, and marketing of tires for Agriculture, Forestry, Construction, Industrial, Earth Moving and OEM applications, under the Alliance, Galaxy, and Primex Brands.

Backed by nearly 60 years of experience, Alliance Tire Group serves customers in 120 countries and offers a full spectrum of products, from basic entry-level tires to a broad range of superior quality value-added products.

All of the Group's tires are developed and tested at its advanced R&D centers.
