

SUCCESS STORY

Dual Master proves the point in Belgium. 3500 hours without punctures, downtime!!

Construction contractor Luc Bosch is based in Oelgem, Belgium. Luc Bosch is one of the companies where we started to test the 315/80R22.5 Alliance Dual Master 506 on a Doosan DX190W, it was in 2012. Now after 2 years, and more than 3500 hrs later his driver is very happy and satisfied with these tires.

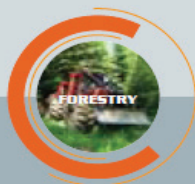

Lately they bought another set of Alliance 315/80R22.5 Dual Master in 528 pattern for their 20 tons Volvo excavator, because of the good experience with Dual Master 506.

Both the drivers are very satisfied with these tires: Where they had many problems with the retreaded ones, till now, there has been no problems at all, with the Dual Master tires.

3500 hours for the Doosan and more than 1000hrs for the Volvo.

Life time Expectation of driver Bart (Doosan DX190W) is more than 5000 hrs, what he never did before.

ATG

Alliance Tire Group specializes in the development, manufacturing, and marketing of Agriculture, Forestry, Construction, Industrial, Earth Moving and OEM applications under Alliance, Galaxy and Primex Brands.

Backed by nearly 60 years of experience, Alliance Tire Group serves customers in 120 countries and offers a full spectrum of products, from basic entry-level tires to a broad range of superior quality value-added products. All of the Group's tires are developed and tested at its advanced R&D centers.
