

# SUCCESS STORY

## Alliance 550 MULTIUSE - 'Very good tire'

Landgut Brodau, located in the German town of Delitzsch, is an agricultural contractor, who uses a variety of machines. One of the machines, they bought in September 2013, a new John Deere 740i Sprayer, was delivered with two Alliance 550 MULTIUSE, size 480/80 R 38.

The user explains the benefits he enjoyed by using the Alliance 550 MULTIUSE as such:

Firstly, he is very happy with the low noise levels of the tire when he is driving on road. Thus there is no problem while driving through the town.

Secondly, he noted that the tires have good road stability, so that he can go back to the farm for filling the tank, from the work site. He thus need not use a second machine for bringing the spray material to the field. This saves him money, by not having to spend on a second machine for transport.

Since the tires are fitted the machine has been used for 66 hours / 542 km, mostly on the Road.

All in all, the user says that, this is a very good tire!

Alliance 550 MULTIUSE , size 480/80R38. Machine - John Deere 740i, towed sprayer

## Alliance 550 MULTIUSE

The Alliance MULTIUSE 550 industrial series is engineered for backhoe, compact construction, municipality tractor, and specialized farm equipment.

With a high rubber-to-void ratio and large number of tread blocks, the MULTIUSE 550 tread is perfect for asphalt and hard surfaces applications. Cleat design and tread pattern also deliver exceptional performance on ice and snow. Durable tread compound ensures long market leading long lasting wear.

Ideal for a wide range of applications, the Alliance 550 is a perfect multiuse tire.

## ATG

Alliance Tire Group specializes in the development, manufacturing, and marketing of Agriculture, Forestry, Construction, Industrial, Earth Moving and OEM applications under Alliance, Galaxy and Primex Brands.

Backed by nearly 60 years of experience, Alliance Tire Group serves customers in 120 countries and offers a full spectrum of products, from basic entry-level tires to a broad range of superior quality value-added products. All of the Group's tires are developed and tested at its advanced R&D centers.
