

365 Agristar makes an Alliance fan out of Senor Giorgio Ragogna!

Mr. Giorgio Ragogna, is an agricultural contractor located at Arzene in the Province of Pordenone in Italy's north eastern part. He has his own 40 hectares of agricultural land and also services other farms in the region with his fleet of 4 tractors.

This March (2014), he mounted two Alliance 365 Agristar R-1W Radial tires on his G240 New Holland MFWA tractor. Size 600/65R 28, 147D. The tires have now been used for more than 300 hours. Mr Ragogna is pleased with the tires general performance, good handling and comfort while driving on asphalted surfaces. He also appreciates the tire's good traction capabilities and self cleaning.

The performance of the 365 Agristar has convinced him about Alliance's product quality. He has thus decided to buy the rear axle sizes when the current ones wear out. Also he will be buying a complete set of Row Crop tires for his machines.

Mr. Ragogna poses with his New Holland tractor mounted with Alliance 365 Agristar R-1W Radial

Alliance 365 Agristar

The Alliance 365 Agristar R-1W Radial is designed for high HP tractors (up to 180bhp). Its large volume enables the tractor to carry higher loads at lower air pressure, thus increasing soil protection and yet providing superior traction. The R-1W tread depth provide for grip in wet field applications. And also has efficient self-cleaning. The 365 is rated at 'D' speed, i.e, 65kph, ideal for modern high speed tractors.

Tested by CRA, Italy. It has been proven that the Alliance 365 Agristar provides performance at par with leading brands at better value. Please ask your Alliance Sales manager for the presentation!

ATG

Alliance Tire Group specializes in the development, manufacturing, and marketing of Agriculture, Forestry, Construction, Industrial, Earth Moving and OEM applications under Alliance, Galaxy and Primex Brands.

Backed by nearly 60 years of experience, Alliance Tire Group serves customers in 120 countries and offers a full spectrum of products, from basic entry-level tires to a broad range of superior quality value-added products. All of the Group's tires are developed and tested at its advanced R&D centers.
