## Alliance 388 & 380 Adds One More Loyal Customer in UK!

**Customer** : R J Cutting  
**Location** : UK  
**Machine used** : MAN TGM 13.290(Spreader)  
**Application** : Manure Spreading  
**Tires in use** : Alliance 388 600/55R26.5 (front) • Alliance 380 750/45R26.5 (rear)

Mr. Rob Cutting runs a contractor business alongside the family farm business. They own a fleet of trailers mounted with Alliance tires.

Around February this year he took delivery of a MAN TGM 13.290 with a Gustrower Spreader on the Chassis. To cope with the field work and still give him 65kmh capabilities on the road, he chose Alliance 388 (600/55R26.5) on the front & Alliance 380 (750/45R26.5) on the rear. The vehicle has currently done approximately 8000km.

When questioned at the first tyre check, Rob commented that the tyres had actually done very well. The conditions had been very wet earlier in the year and the tyres are coping very well.

A normal trailed sprayer operates at 11-12kmh on the field and this specially designed self propelled sprayer works at 17kmh which means Mr. Rob is able to cut time on the field by approximately 30%. Next year Rob will be replacing at least one of the trailed sprayers with another MAN self propelled through the machine builder, Ryetec. This may well have Alliance tires fitted on them.
