## Alliance 390: Widest Tires for a 30,000 litre Slurry Tanker in Germany!!

- Customer** : Meier und Partner AGRARSERVICE GmbH & Co. KG  
**Location** : Westeregeln, Germany  
**Machine used** : KAWECO SWAN NECK slurry tanker, 30,000l tridem version With Claas Xerion tractor  
**Application** : Slurry tanker  
**Tires in use** : Alliance 390, 850/50R30.5, 182D, TL

Meier und Partner AGRARSERVICE GmbH & Co. KG is an agri-company based in Westeregeln, Germany. They had bought a Kaweco Swan Neck 30,000 litre slurry tanker booted with Alliance 390 tires (850/50R30.5, 182D). The tires have run for 3000 working hours till date and the customer is very happy the way tires have performed so far.

The Customer Says, "Alliance 390 are the widest tires on these kinds of slurry tankers. The tires have performed very well. They provide good comfort, less wear and most importantly less soil disturbance. No visible soil disturbance or very less in extreme wet conditions. The tires have performed as expected. With the current performance & wear, we expect the tires to run for minimum 3000 hours or even more. Definitely Alliance would be our first choice for replacement. Also the tire dealer, Bänex Reifen, is a professional organisation who is there for us to advice and provides the right tires in the right time at the right place, 24/7 when required. Now we use the machine for three seasons without any problem on these tires. The drivers love to work this combination for its comfort and easy working. Our customers are happy to have us with this combination in their field because of the minimal impact of the machine on the field. The tires are a large reason on this as they have a low ground pressure and minimal soil disturbance. We are very happy with the tires & would definitely recommend Alliance to others."
