

SUCCESS STORY

Alliance 390 floats on the delicate fields in UK!!

Customer : SERCO - International Leisure Centre
Location : Shropshire, England
Machine used : New Holland TL100A tractor
Application : Agriculture & Allied
Tires in use : Alliance 390 (500/60R22.5 Front) (620/75R26 Rear)

SERCO originally approached ATS Euromaster to help with a ground care tractor which had been exhibiting differential windup since delivery on a set of competitor tires. Euromaster invited ATG to make recommendations that might alleviate this problem. The recommendation was for A390 to be fitted all round with 500/60R22.5 fronts and 620/75R26 on the rears allowing SERCO to use the existing rims and thus minimize the costs of conversion.

The tires have recently been fitted and the tractor operators are delighted with the new radial tires' performance on the delicate fields and pitches of the leisure centre.

Peter Bolland, the site manager at Lilleshall commented "The vehicle did not exhibit the knocking associated with the original fitment. Also, not only do they give good traction and grip they do not damage the ground as well. It was good to have a point of contact to consult for technical advice when it is needed."

A390s on the tractor
