

SUCCESS STORY

Long Hours of Heavy Lifting- Galaxy Portstar +

Customer: Pentalver
Location: Felixstowe, Suffolk, England
Machine used: SMV 4531 TBS
Application: Port
Tires in use: Portstar + 315 Extra Deep (18.00-25)

Pentalver currently have a contract with Competitor Tires to provide tyres for their in-house fleet of SMV 4531 TBS reach stackers but occasionally try other brands to benchmark .

For one of these exercises they decided to test our own Galaxy portstar+ tyres in an 18.00-25.

Rear tyres tend to wear out quickest due to turning and rarely return more than 3000 hrs . One tyre was accidentally damaged before wearing out but the second **tyre achieved a respectable 3440 hrs .**

The fronts (Dualled) tend to last around twice as long (6000 hrs) and 7000 hrs is considered exceptional. The tyres still have a little life left in them but have **currently completed 7776 hrs which is one of the best results achieved on these vehicles.** Ian would be more than happy to use them again and would happily recommend them to anyone running similar vehicles.

Ian Meekings with the reach handler on Galaxy.

Alliance Tire Group specializes in the development, manufacturing, and marketing of tires for Agriculture, Forestry, Construction, Industrial, Earth Moving and OEM applications, under the Alliance, Galaxy, and Primex Brands.

Backed by nearly 60 years of experience, Alliance Tire Group serves customers in 120 countries and offers a full spectrum of products, from basic entry-level tires to a broad range of superior quality value-added products.

All of the Group's tires are developed and tested at its advanced R&D centers.
