

Alliance 365 Agristar, Great traction, comfort and no punctures!

Customer: Balneario de Benito
Location: Castilla la Mancha - Spain
Machine used: FENDT 820 VARIO
Application: Agriculture and Allied
Tires in use: A 365 540/65R30 (Front)
 A 365 650/65R42 (Rear)

One of the most important farms in the Castilla la Mancha region of Spain was not happy with the performance of the tires from a leading brand in his Fendt 820 Vario tractor. The tyres wore out completely 4000 working hours. Additionally there were several punctures and successive repairs since his 2000 hectares field has mostly rocky surface.

Mr. Mário then decided to fit the Alliance 365 Agristar recommended by Alliance distributor, Neumáticos Lucena. The distributor explained that the A365 has a very strong carcass, making it more resistant to punctures and also due to its massive lugs, it would give him a very good grip in the field.

After trying these tires, Mr. Mário's farming company is so happy with the performance that they are fitting all of its 7 tractors with Alliance 365 Agristar. After 1000 working hours, this tractor hasn't had any puncture and you can feel that the tractor isn't making so much effort in its day to day work. But above all, the life

expectancy should be at least 50% more than previous tires.

Also, Mr. Mário says: "Driving my tractor with these tires is like riding a car! These tires are making my job a lot easier!"

Alliance Tire Group specializes in the development, manufacturing, and marketing of tires for Agriculture, Forestry, Construction, Industrial, Earth Moving and OEM applications, under the Alliance, Galaxy, and Primex Brands.

Backed by nearly 60 years of experience, Alliance Tire Group serves customers in 120 countries and offers a full spectrum of products, from basic entry-level tires to a broad range of superior quality value-added products.

All of the Group's tires are developed and tested at its advanced R&D centers.
