

Alliance 365 Agristar. A smooth & gritty performer under the Andalusian sun!

Customer: Transformaciones Suagri
Location: Andalucia, Spain
Machine used: Case Puma 195
Application: Agriculture and Allied
Tires in use: A 365 650/65R42 (Rear)

After local field engineer promoted the A365 Agristar with agricultural tire specialist Neumáticos Fuentes in the Spanish region of Andalucia, they fitted on the rear axle of a CASE PUMA 195 with the size 650/65R42, belonging to the company Transformaciones Suagri. The results couldn't have been better!

Having previously been fitted with tires from an leading European brand, the difference in traction power and road stability and comfort are amazing. The driver of this tractor says: "This tire has much better traction than the tires before, and considering that the lugs are so big, the tractor is much smoother and comfortable on the field and road!"

This tractor works all year doing all kinds of agricultural work, from ploughing, cultivating, seeding and also road transport, bearing a lot of weight constantly in the driest and hottest region of Spain.

The Andalucia region is the most demanding area of Spain for agricultural tires. Summer temperatures are as high as 50 degrees celsius,

making it a perfect test site for this kind of tires.

Mr. Manuel from Neumáticos Fuentes says: "If the tire performs well in Andalucia, it will perform great in any part of the world!"

ATG's Tarun Baghwat with the customers and their Case Puma 195

Alliance Tire Group specializes in the development, manufacturing, and marketing of tires for Agriculture, Forestry, Construction, Industrial, Earth Moving and OEM applications, under the Alliance, Galaxy, and Primex Brands.

Backed by nearly 60 years of experience, Alliance Tire Group serves customers in 120 countries and offers a full spectrum of products, from basic entry-level tires to a broad range of superior quality value-added products.

All of the Group's tires are developed and tested at its advanced R&D centers.
