

550 MULTIUSE – Exceptional performance in Spain!

Customer: Mr. José
Location: Castilla León - Spain
Machine used: JOHN DEERE 6310
Application: Agriculture & Allied
Tires in use: A 550 400/80R24 (Front)
 A 550 480/80R38 (Rear)

Local tire dealer Javier Antoraz, an agricultural tires specialist from the region of Castilla León, is always trying to provide the best service for his highly professional agricultural machinery users. When Mr. José entered his tire dealer complaining that his tires were failing constantly with punctures, due to the very demanding ground surface where he usually works collecting pine cones with the front loader of his John Deere 6310.

Having in mind the application of this tractor, Mr. Antoraz recommended the A550 as the solution for his problem, and the client couldn't be happier.

"This tire is amazing for what I do! It withstands the heavy loads of pine cones that I work with all day and the road comfort is just perfect!" Mr. José says. He tells us that since he fitted the A550 the improvement was incredible, namely, while doing his work the dirt doesn't lift

that much, the tractor is spending considerably less fuel due to making less efforts and low slippage and also stopped jumping at higher speeds on the road.

Mr. José with his trusted John Deere with ALLIANCE 550 MULTIUSE RADIAL

Alliance Tire Group specializes in the development, manufacturing, and marketing of tires for Agriculture, Forestry, Construction, Industrial, Earth Moving and OEM applications, under the Alliance, Galaxy, and Primex Brands.
