

SUCCESS STORY

Heavy Duty on-the-road use.

Mr. Jean Marie Jacquel is an agricultural contractor from Saint Dié in the Vosges, France. In April 2009 He bought one first 22,500 liters slurry tanker from PICHON which has the Alliance 181D A-390 flotation radial installed as a standard tire. This particular slurry tanker is shod with the 750/60R30.5 tire.

Mr. Jacquel work keeps him and his machines on the road almost every day, and does more than 300km per day during the season.

After two and half years he decided to change the tanker's tires due to the hard working conditions the tires were performing in. He then replaced the tires with new 750/60R30.5 190D A-390HD (Heavy Duty). After 4 months of service, Mr. Jacquel said about the A-390HDs that "they are the perfect tires for this kind

of work, which involves a lot of road service during a long period, around 20000 kilometers per year, and a good stability especially on the small road, with good self cleaning characteristics on the field".

On the road for over 300km per day!

Mr. Jean Marie Jacquel next to his Pichon slurry Tanker.

It has been observed that the tire looks nice, with the right bead position on the rim, and a small wear 2mm only. The tires run a pressure of 5.0 bar.

To augment the fact that 'Once and Alliance customer, always an Alliance customer', Mr. Jean Marie Jacquel bought four new 650/65R26.5 174D A-380 flotation radial tires to equip another slurry tanker in the end of 2010.

Alliance Tire Group specializes in the development, manufacturing, and marketing of tires for Agriculture, Forestry, Construction, Industrial, Earth Moving and OEM applications, under the Alliance, Galaxy, and Primex Brands.

Backed by nearly 60 years of experience, Alliance Tire Group serves customers in 120 countries and offers a full spectrum of products, from basic entry-level tires to a broad range of superior quality value-added products.

All of the Group's tires are developed and tested at its advanced R&D centers.
