

SUCCESS STORY

4700 HOURS OF TOUGH TRACTION IN THE FOREST

With over 42 years of experience, Mr. Michel Poral is a forestry services contractor in the region of Auvergne, France.

Mr. Poral owns a HSM 904Z skidder, bought in May 2008. The skidder runs on four Alliance F-345 tires, size 30.5-32 18 PR. Since purchasing the skidder, Mr. Poral has used it for over 4700 hours without any problems.

Mr. Poral next to his HSM 904Z skidder

The four Alliance tires he bought the skidder with are still in duty. Mr Poral expressed his overall satisfaction with the Alliance forestry tires and highlighted the long wear, the machine's stability, the outstanding self cleaning characteristics, and the excellent traction provided by the tires on the muddy hills he operates the skidder on.

“The Alliance F-345 is far better than any other forestry tire I ever used in my 42 years career”

Mr Poral said: “During all that time I’ve been using the Alliance tires, we had only one puncture. It is far better than any other tire I ever used in my 42 years career. We also no longer need to use chains to get good traction in the mud. The F-345 tires just do the job without them”

After so many years in the business he is now planning his retirement: “Next year I’ll put new Alliance tires on this Skidder and sell it to some young contractor. He’ll sure enjoy the machine and the tires”.

345 FORESTAR

The 345 Forestar LS-2 is Alliance answer to specialty high end Forestry Log skidder tires, that are capable to deal with the toughest operation in modern forestry.

Deep, wide, robust lugs, with low lug angle provide an excellent grip as well as high traction forces required for a wide range of forestry terrains.

The tires are designed to take on heavy horizontal loads and suited best for rugged forestry application.

Mr. Poral's HSM 904Z skidder. "Next year, before my retirement, I'll put new Alliance tires on this Skidder and sell it to some young contractor. He'll sure enjoy the machine and the tires".

ATG

Alliance Tire Group specializes in the development, manufacturing, and marketing of tires for Agriculture, Forestry, Construction, Industrial, Earth Moving and OEM applications, under the Alliance, Galaxy, and Primex Brands.

Backed by nearly 60 years of experience, Alliance Tire Group serves customers in 120 countries and offers a full spectrum of products, from basic entry-level tires to a broad range of superior quality value-added products. All of the Group's tires are developed and tested at its advanced R&D centers.
