Mr. Bertrand said: “I got this skidder from Camox with Alliance tires, a brand I didn't know before. Now, after working with it for quite a long time, and having such a good experience with the Alliance tires, I can clearly say that it's exactly what we need for this kind of work.

We work in the mountains and the tires are just perfect even without chains. The stability is excellent and so is the traction”.

In addition, Mr. Bertrand also mentioned his satisfaction from the good service he received from the Alliance's dealer 'Euromaster' who had sold to him the replacement tires, and from Alliance's field engineering visit.
